Chennai, Tamilnadu

Professional Summary

Versatile Web Developer and ML Engineer with hands-on experience in building dynamic web apps and deploying AI models for real-world use cases. Skilled in full-stack development, data handling, and intelligent system integration.

Work Experience:

AI/ML Engineer Internship *July 2024 - Dec 2024*

Tamilnadu e-governance Agency (TNeGA)

- Developed a robust crop detection system using aerial imagery and real-time government datasets to support precision agriculture and digital land-use monitoring.
- Designed and trained machine learning and deep learning models in Python for accurate crop type identification, achieving high classification performance across diverse terrains.
- Collaborated in a cross-functional team to align technical outcomes with state-level governance objectives, contributing to policy-driven smart agriculture initiatives.

AI/ML Engineer *January 2025 - present*

Eramus Project (European Research Initiative)

- Developed a comprehensive plant disease detection and recognition system using real-time agricultural datasets.
- Applied advanced machine learning and deep learning techniques, including Convolutional Neural Networks (CNNs), for accurate disease classification across multiple crop types.
- Utilized Python, TensorFlow, Keras, and OpenCV for model development and image preprocessing pipelines.

Data science Training and internship Acmegrade *06/2023 - 07/2023*

- Hands-on experience in Data Science through mini-projects on object detection and classification using ML models

Technical Skills

- **Programming Languages**: Java, Python, JavaScript
- **Web Technologies:** HTML, CSS, Tailwind CSS, React.js, Node.js, FastAPI
- **Databases:** MySQL, MongoDB, PostgreSQL
- **AI/ML Frameworks:** Scikit-learn, TensorFlow, Keras, OpenCV, CNN, YOLO
- **Tools & Platforms:** Git, Postman, Figma

Education:

M.Sc. Integrated IT *November 2021 - present*

College of Engineering Guindy, Anna University

CGPA - 7.79 (till 7th semester)

HSC *2020 - 2021*

Holy Angels' Matric Higher Secondary School

Percentage - 93.6

SSLC *2018 - 2019*

Holy Angels' Matric Higher Secondary School

Percentage - 90.6

Projects

- Food Ordering website

  Inputs: HTML, CSS, Java, MySQL
- Book store management

  Inputs: React , Node, Express and MongoDB
- News aggregator

  Inputs: React and News API
- PRJ Sales Forecasting & Detection of parkinson's diseases (Internship)

  Inputs: Python

Achievements

- Completed 8 Hindi proficiency exams.

Additional things

- Languages : Tamil, English, Hindi
- Certifications: Training and internship completion certificate of TNeGA and Acmegrade
- Designing : Canva, Adobe Illustrator
- **Soft Skills:** Problem-Solving, Team Collaboration, Leadership, Time Management, Communication, Adaptability, Critical Thinking
